PROFESSIONAL SUMMARY

Software Engineer with 3+ years of professional experience building cross-platform mobile applications, web applications, backend APIs and AI-integrated solutions. Proficient in Flutter, React, Next.js, TypeScript, Node.js, NestJS, Python and FastAPI. Experienced in Clean Architecture, RESTful API development, database integration, authentication and enterprise software development. Focused on building scalable, maintainable applications and integrating practical AI capabilities into software products.

WORK EXPERIENCE

Software Engineer | Softograph Ltd, Dhaka, Bangladesh **Jan 2025 – Present**

- Develop cross-platform Flutter applications using BLoC and Clean Architecture for enterprise business workflows.
- Contribute to the Samsung Field Force platform, including GPS-based geofencing, camera-verified attendance, inventory reconciliation and application update workflows.
- Build and maintain Next.js and React frontend applications integrated with RESTful APIs.
- Develop and maintain RESTful APIs using NestJS and TypeScript to support mobile application functionality.

Software Engineer | Microdeft, Dhaka, Bangladesh **Jan 2023 – Sep 2024**

- Developed multi-vendor e-commerce features with SEO optimization, server-side rendering and payment gateway integration.
- Built a custom ERP solution that automated workflows and resource tracking across five departments.
- Developed real-time analytics dashboards for monitoring commercial transaction metrics.
- Led front-to-back development of an event ticketing platform (Next.js, React, Tailwind CSS).

PROJECTS

MedBangla AI – Bangla Prescription Understanding Assistant
Technologies: Python, FastAPI, PostgreSQL, Next.js, Flutter, Docker, Gemini API
Live: medbangla-ai-liart.vercel.app | **GitHub:** github.com/didipta/medbangla-ai

- Developed an AI-assisted platform for extracting and organizing prescription information in Bangla and English.
- Integrated OCR and AI-based processing workflows for prescription text extraction and medicine identification.
- Integrated medicine-matching workflows with a database containing 17,500+ medicine records.
- Implemented drug-interaction checking and a Bengali clinical knowledge retrieval workflow.
- Designed a FastAPI backend and web application architecture.

Study project; outputs require independent verification and must not be relied on for medical decisions.

Oiikko Community App
Technologies: Flutter, Firebase Authentication, Cloud Firestore, Firebase Cloud Messaging

- Developed a cross-platform community application with real-time messaging and push notifications.
- Supported offline data handling and secure local data storage.
- Published the application on Google Play and the Apple App Store.

Shopping Corner – Live E-Commerce Website
Technologies: NestJS, Redux, Tailwind CSS, SSR | **Live:** shoppingcorner.com.bd

- Deployed and optimized a live retail website serving shoppers across Bangladesh, with dynamic product catalogs, server-side rendering and order tracking.

Bangladeshi Taka Banknote Detection
Technologies: Python, YOLOv11, FastAPI, Docker
GitHub: github.com/didipta/Bangladeshi-Taka-Note-Detection

- Integrated a custom-trained YOLOv11 model into a FastAPI prediction service.
- Containerized the inference service with Docker and provided a web interface for image submission.
- Built an API-based workflow for detecting Bangladeshi banknotes from uploaded images.

TECHNICAL SKILLS

Programming Languages: TypeScript, JavaScript (ES6+), Dart, Python, C#, SQL, C++
Mobile Development: Flutter, BLoC, Clean Architecture, Firebase Authentication, Cloud Firestore, Firebase Cloud Messaging, Google Maps SDK
Frontend Development: React.js, Next.js (App Router, Server Actions), Redux Toolkit, Tailwind CSS, HTML5, CSS3, Server-Side Rendering (SSR)
Backend Development: Node.js, NestJS, FastAPI, ASP.NET Core, RESTful APIs, WebSockets, JWT Authentication, Role-Based Access Control (RBAC)
Databases and ORM: PostgreSQL, MongoDB, MySQL, Microsoft SQL Server, Cloud Firestore, Prisma, Mongoose
AI and Machine Learning: LLM Integration, Retrieval-Augmented Generation (RAG), OCR, Computer Vision, YOLOv11, LangChain
Tools and DevOps: Git, GitHub, Docker, Linux, CI/CD, Postman, Pytest, Vercel

EDUCATION

B.Sc. in Computer Science and Engineering **2019 – 2022**
American International University-Bangladesh (AIUB), Dhaka, Bangladesh | CGPA: 3.77/4.00 (Honors)

CERTIFICATIONS

- Next Level Web Development (Next.js and Node.js) – Programming Hero
- Complete Web Development Bootcamp – Programming Hero
- Certified Flutter Application Developer – Ostad

ACHIEVEMENTS

- Solved 100+ programming problems on LeetCode.
- Earned 5-star HackerRank badges in Problem Solving and C#.
- Published a cross-platform community application on Google Play and the Apple App Store.

LANGUAGES

English (Intermediate), Bangla (Fluent)
